### Profile

---

I am a Front-End Developer with over 2.5 years of experience in building and managing responsive websites and web applications. I have worked on a wide range of projects across industries such as healthcare, fashion, cinema, IT solutions, news media, and corporate informational platforms. Throughout these projects, I have consistently focused on enhancing user experience, optimizing performance, and delivering clean, accessible interfaces. I collaborate effectively in team environments and manage tasks with attention to detail. My core skills include JavaScript, React, HTML, and CSS. I enjoy solving complex UI challenges and implementing scalable, user-friendly solutions tailored to each project's unique needs.

---

### Experience

---

<b>Front End Developer</b>	<b>07/2024 - Present</b>
----------------------------	--------------------------

#### Project Management Systems

- Developed responsive, user-facing webpages with HTML, CSS, JavaScript, and React, ensuring cross-browser compatibility.
- Translated client needs into actionable tasks, integrating front-end code with server-side systems for dynamic pages.
- Ensured clean, valid HTML and CSS markup, adhering to industry standards for performance and security.
- Reviewed and optimized website layouts and elements, enhancing functionality and user experience across devices.

<b>Front end Developer</b>	<b>04/2024 to 08/2024</b>
----------------------------	---------------------------

#### Buyur App

- Collaborated with product owners, designers, and stakeholders to align development with project goals throughout the process.
- Designed and coded the admin panel, implementing features to streamline system management and usability.
- Developed user roles and permission systems, enhancing security with robust authentication and authorization mechanisms.
- Integrated interactive charts and tables for data visualization, optimizing code and load balancing for an efficient admin panel.

---

### Projects

---

2024 -2025

- **Melhem Hospital** – [melhemhospital.com](http://melhemhospital.com)  
Developed both the official website and the admin panel of a healthcare platform using React and SCSS. Built dynamic service pages, implemented appointment UI, and ensured a responsive and accessible layout. Admin panel includes load/service management and content update features.
- **Project Management Systems** – [pmsystems.az](http://pmsystems.az)  
Led the development of both the corporate site and admin dashboard using React and Tailwind.

Implemented multi-language support with i18next, dynamic service filtering, and modular UI components. Admin panel allows full control over project, team, and service information.

- **Atelier Di Falco** – [atelierdifalco.az](https://atelierdifalco.az)  
Developed a visually polished and stylish website for a luxury fashion brand. Used React and animation libraries to deliver smooth transitions, a clean layout, and a responsive design optimized for high-end brand representation.
- **Cinema Gia Client** – [cinema-gia-client.vercel.app](https://cinema-gia-client.vercel.app)  
Built a full-stack movie booking platform with a dynamic front-end and an interactive admin panel. Implemented real-time movie listings, API integration, seat selection UI, and filtering features. Admin dashboard allows movie scheduling, data control, and content moderation.
- **CanubGas Supply Service** - [canubgas.az](https://canubgas.az)  
Created a multilingual corporate site for a gas supply company using React and SCSS. Designed and implemented a clean and informative UI with static content structured modularly. Focused on responsive design and accessibility across Azerbaijani, English, and Russian languages.

---

### Education

<b>Information Technology</b>	<b>2021- 2025</b>
Azerbaijan Technical University (SABAH)	
<b>Front End Developer</b>	<b>09/2023 – 03/2024</b>
CODE Academy	

---

### Technical Skills

• HTML	• Tailwind	• MongoDB	• JQuery
• CSS	• Web API	• Express.js	• Redux
• JavaScript	• MongoDB	• JWT	• Figma
• React	• Bootstrap	• TypeScript	
• Scss	• Node.js	• Canva	

---

### Soft Skills

• Communication	• User Empathy	• Critical Thinking	• Teamwork
• Attention to Detail	• Time Management	• Adaptability	• Creativity

---

### Languages

**Azerbaijan:** First Language  
**English:** Intermediate (B1)
