Profile

Innovative Front End Developer with relevant hands-on experience in designing, developing, and managing complex websites and applications. Recognized for effective team collaboration and strategic project management skills. Strength lies in the knowledge of various programming languages such as JavaScript, React, NodeJS, CSS, and HTML, along with strong problem-solving abilities. Previous work has made a significant impact by substantially improving user experience and website performance.

Experience

Front End Developer Project Management Systems	07/2024 - Present
-----------------------------------------------------------------	--------------------------

- Developed responsive, user-facing webpages with HTML, CSS, JavaScript, and React, ensuring cross-browser compatibility.
- Translated client needs into actionable tasks, integrating front-end code with server-side systems for dynamic pages.
- Ensured clean, valid HTML and CSS markup, adhering to industry standards for performance and security.
- Reviewed and optimized website layouts and elements, enhancing functionality and user experience across devices.

Front end Developer Buyur App	04/2024 to 08/2024
------------------------------------------------	---------------------------

- Collaborated with product owners, designers, and stakeholders to align development with project goals throughout the process.
- Designed and coded the admin panel, implementing features to streamline system management and usability.
- Developed user roles and permission systems, enhancing security with robust authentication and authorization mechanisms.
- Integrated interactive charts and tables for data visualization, optimizing code and load balancing for an efficient admin panel.

Projects

2024 -2025

- **Melhem Hospital** – melhemhospital.com
Developed a healthcare website with a focus on easy appointment booking, intuitive UI, and optimized performance for better user engagement.
- **Project Management Systems** – pmsystems.az
Built a corporate website for a project management company, enhancing accessibility and ensuring smooth integration of service details.
- **TACS** – tacs.az
Developed a professional website for a consulting company, ensuring a modern and responsive design with seamless navigation.

- **Pine** – pine.az
Designed and implemented a clean, user-friendly interface for a real estate platform, optimizing performance and accessibility.
- **Atelier Di Falco** – atelierdifalco.az
Created a visually stunning website for a luxury fashion brand, focusing on elegance, smooth animations, and an intuitive user experience.
- **EcoVita** – ecovita.az
Created a clean and nature-inspired website for Ecovita MMC, highlighting their use of wild medicinal plants from Azerbaijan and modern production methods.
- **MacaraClub** – menu.macaraclub.az
Developed a stylish and user-friendly digital menu platform for Macara Club, showcasing a diverse selection of culinary delights with elegant visuals and seamless navigation for a premium dining experience.
- **Chaparkhana** – chaparkhana.az
Designed a fresh and vibrant website for Chaparkhana, a company specializing in high-quality fruits and vegetables, emphasizing their commitment to natural products and reliable local sourcing across Azerbaijan.

Freelance Projects

2023 -2025

- **PSG UK** – psg-uk.com
Developed and optimized the front-end architecture for PSG UK, ensuring a responsive and seamless user experience. Implemented interactive UI components to enhance usability and engagement. Created and implemented firewalls, encryption strategies and other critical security measures.
- **Amina Azif** – amina-azif.az
Designed a clean, modern website for Amina Azif, integrating a portfolio showcase, smooth transitions, and a fully responsive layout.
- **PSG USA** – psg-usa.com
Created a visually appealing and user-friendly interface for PSG USA, improving accessibility and navigation. Focused on performance optimization and cross-browser compatibility. Developed user roles and permission systems, enhancing security through authentication and authorization mechanisms.
- **Stadt Taxi Lübeck** – stadttaxi-luebeck.de
Designed and built a taxi service website with a clear, intuitive layout. Integrated real-time booking functionalities to enhance user convenience and service efficiency. Implemented real-time notifications and alert functionalities within the system.
- **Cinema Gia Client** – cinema-gia-client.vercel.app
Developed a movie booking platform with dynamic UI elements. Ensured seamless API integrations for real-time movie listings.
